<b>Office Action Summary</b>	<b>Application No.</b> 10/743,778	<b>Applicant(s)</b> SEO ET AL.	
	<b>Examiner</b> Camie S. Thompson	<b>Art Unit</b> 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Applicant's amendment and accompanying remarks filed January 8, 2008 are acknowledged.
2. Examiner acknowledges amended claim 1 and 10.
3. The status identifier for claim 5 is incorrect. The amendment of January 8, 2008 has claim 5 amended by cancelling compound H-11.
4. The rejection of claims 1-10 under 35 U.S.C. 102(e) as being anticipated by Hosokawa et al., U.S. patent Number 6,534,199 is overcome by applicant's amendment.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1-2, 5 and 9-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is rendered indefinite because it is unclear as to the meaning of the phrase "at least one of A1 and A2 is selected from ... t-butyl". If one is selected, it is unclear as to what the other of A1 and A2 represents. Additionally, it is unclear with respect to whether or not A1 and A2 each has a substituent.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 1-2 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Matsuura et al., U.S. Pre Grant Publication Number 2005/0064233.

Matsuura discloses an organic electroluminescent device comprising a pair of electrodes and a light emitting medium disposed therebetween. The reference discloses that the light emitting medium comprises (A) an amine derivative and (B) an anthracene derivative (see paragraph 0008). Additionally, the reference discloses that the amine derivative can have the structure

and the anthracene derivative has the structure

Matsuura claim 12 discloses that the weight ratio of component (A) to component (B) is 1:99 to 20:80 as per instant claim 2. The Matsuura reference reads on present claim 1 when A1 and A2 are substituted with methyl.

### *Response to Arguments*

9. Applicant's arguments filed January 8, 2008 have been fully considered but they are not persuasive. Applicant has cancelled compounds H-11 and S2 in claims 5 and 10. However, the Matsuura reference still reads on present claims 1 and 2 in that A1 and A2 can be substituted with methyl. The rejection is maintained.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1794

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
